### **Exhibit Provides Students A Look At The Future**

The Academy of Arts and Technology at Weaver High School in Hartford has been chosen as one of the remaining stops of the inaugural FutureLab Tour.

FutureLab is a "traveling time machine" that stops at high schools nationwide, providing a hands-on look at the future. FutureLab will give teens a chance to learn about everything from our genetic maps, the evolution of the solar system, and the future of sports. Exhibits include an interactive Lunar Space Rover, a look at the future from the view of science fiction, and even an alien museum!

Weaver is the only high school in Connecticut to be offered the tour, which is sponsored by the Institute for Global Futures, Brainscratch and Scion Corporation. The exhibit will be open to Weaver students only on Tuesday, June 1 from 9 a.m. to 2 p.m. and for Weaver students, their parents, and community members FREE from 6 p.m. to 9 p.m. in the Weaver High School gymnasium. On Wednesday, June 2, the FutureLab exhibition will be open again to the Hartford community from 1 p.m. to 3 p.m.

For more information, please contact Deb Mortensen, Weaver High School librarian, at (860) 695-1713.
